

BLOXED MANIA

Bloxed Mania is a puzzle game in which you move identical blocks together, which causes them to disappear. Once all the blocks are gone, you've solved the level. Only 39 more to go!

Unlike similar games, Bloxed Mania has only one or a few possible solutions per level. Therefore solving it is more difficult than you might think!

Game features:

- 40 levels to complete
- Varying difficulty from easy to insanely hard! You can skip levels if you wish...
- Move blox using lifts, magnets, teleportation etc.
- Available in multiple languages on request

Outland

The primeval prophecy came true - ancient evil has broken free.

Once imprisoned in the dark depths of outland dungeons, now it is free and merciless.

The army of hell spreads death and chaos, covering the lands with corpses.

Nothing in the world can stop it... Except for her, the chosen one.

Battle your way through thirty levels of 3D anarchy in this exciting third person "hack and slash" game.

Game features:

- Pick up a wide array of weapons, potions and other equipment to enhance your character
- True 3D graphics
- 30 arcade levels full of action

MIKA KALLIO GP

ROAD RACING 250CC MOTEGI WINNER

Mika Kallio, the number two rider in last years Road Racing 125cc championship, has now moved on to the 250cc series where he already scored his first win at Motegi.

Step into Mika's shoes, let the engine roar and ride him to champion as you take on all the 18 challenging racing tracks spread out all over the world. Nothing is more satisfying than making your competitors inhale the dust you leave behind!

Game features:

- Race on 18 different authentic GP tracks
- 22 challenging AI opponents
- Quick Race, GP Race and Championship modes
- Free practice mode helps you sharpen skills
- Qualifying rounds
- 3 difficulty levels
- Available in multiple languages on request

Avenging Angel

As the gates of hell are torn open, the dead rise and walk the earth.

The streets are filled with undead. This hoard of decapitating living dead are out for one thing, and one thing only; human flesh.

What the world needs is a hero. What they get is her - the Avenging Angel.

Wade through ten levels of pure mayhem by becoming the Avenging Angel, or play head to head against a friend in this exciting multiplayer third person shooter.

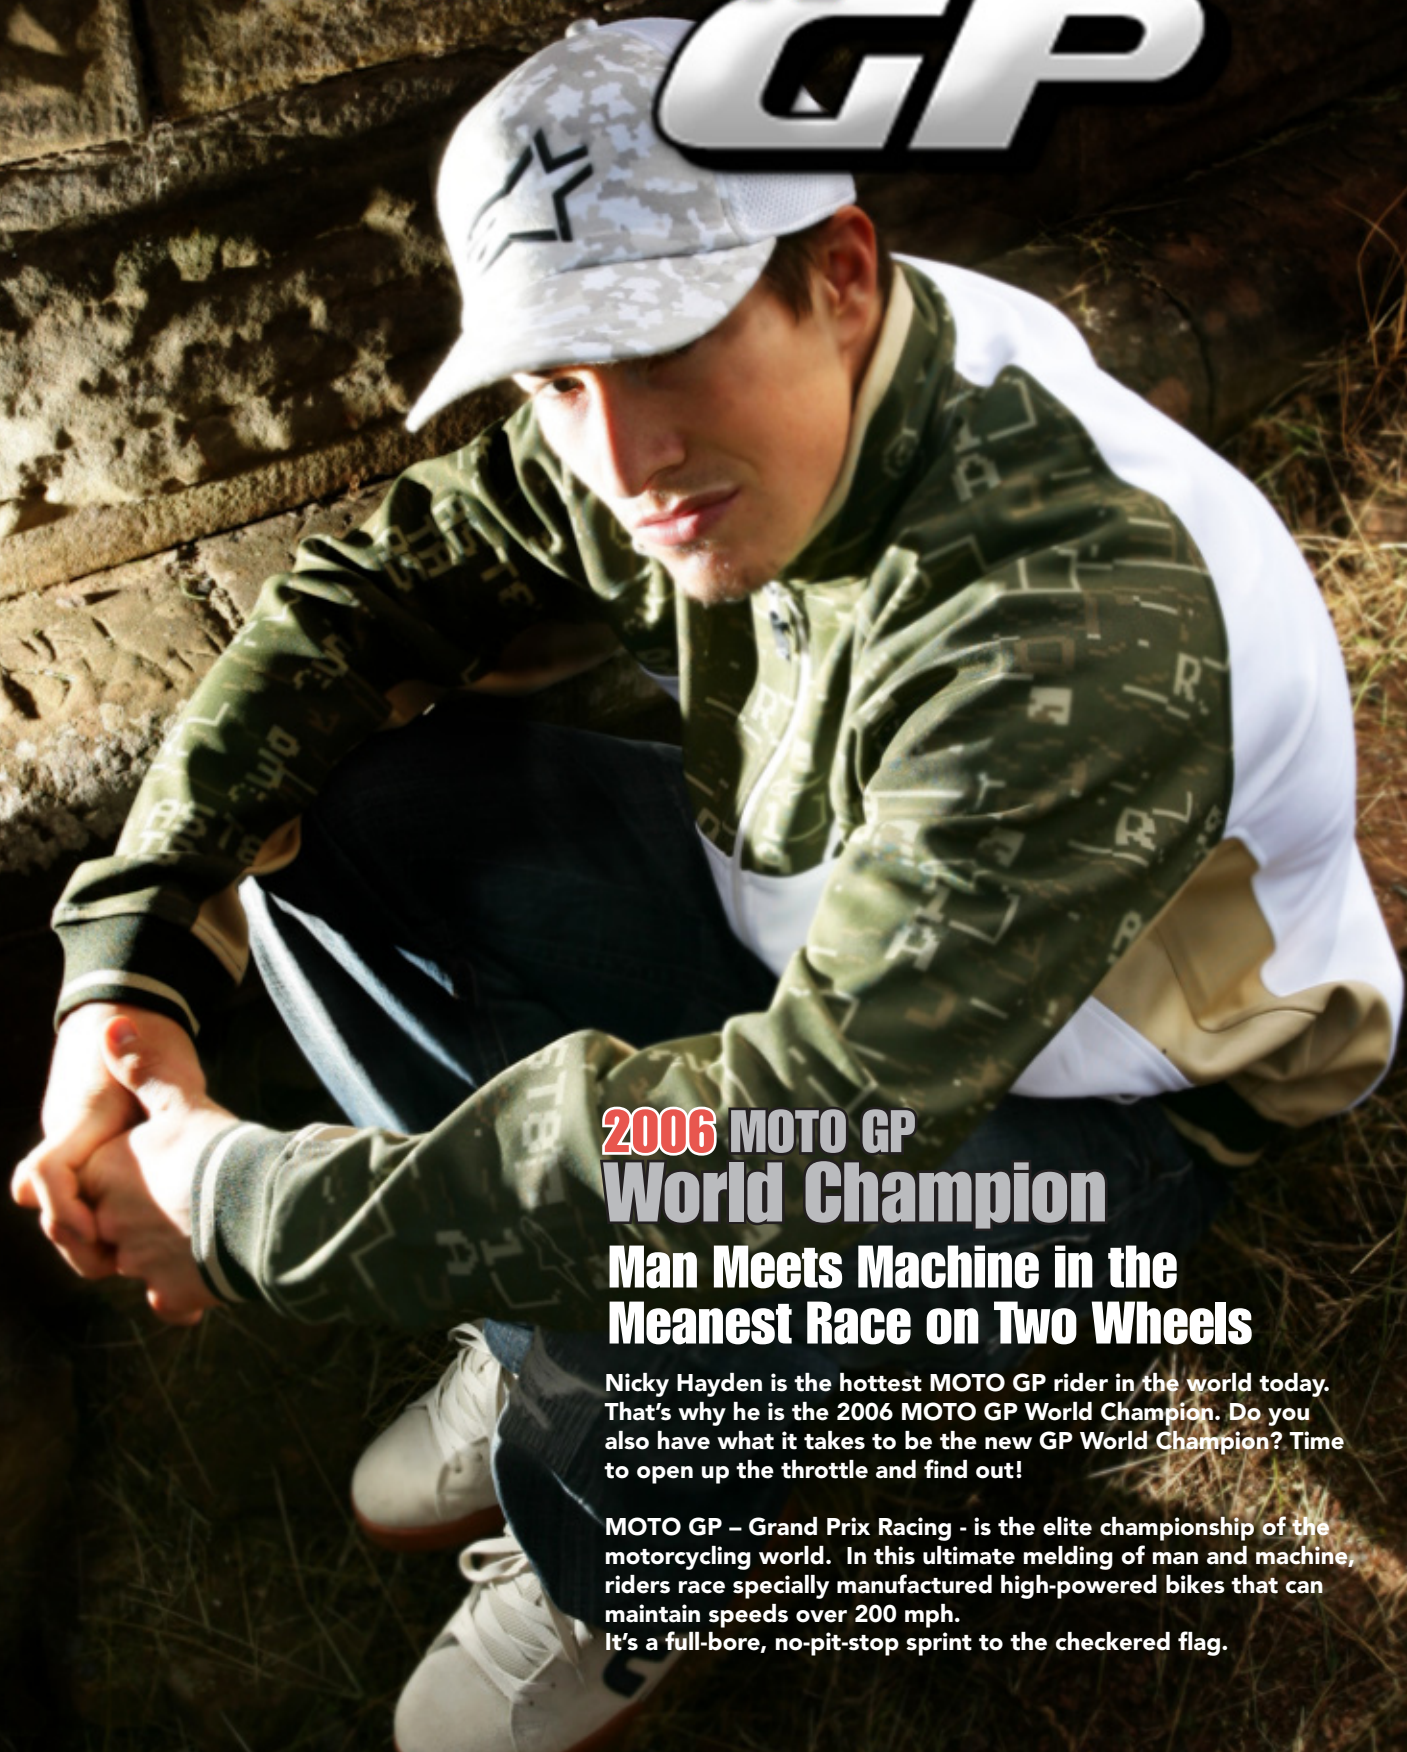

Game features:

- Single player and two multiplayer modes (co-operation and deathmatch)
- Multiplayer over Bluetooth and Internet (GPRS/WiFi)
- Includes 10 arcade levels plus "survival mode"

Nicky HAYDEN GP

2006 MOTO GP World Champion Man Meets Machine in the Meanest Race on Two Wheels

Nicky Hayden is the hottest MOTO GP rider in the world today. That's why he is the 2006 MOTO GP World Champion. Do you also have what it takes to be the new GP World Champion? Time to open up the throttle and find out!

MOTO GP – Grand Prix Racing – is the elite championship of the motorcycling world. In this ultimate melding of man and machine, riders race specially manufactured high-powered bikes that can maintain speeds over 200 mph. It's a full-bore, no-pit-stop sprint to the checkered flag.

Nicky GP

So strap on your helmet, grab your throttle and get ready to mash gears against 2006 MotoGP World Champion Nicky Hayden! You can choose one of six authentic Grand Prix tracks from around the world. But you'd better bone up on your riding skills in Practice Mode first. Not only will you be facing some of the world's toughest competition, you'll be dealing with changing weather conditions too. Sometimes it gets downright ugly out there.

Think your bike can handle it? Fortunately, you can custom-tune your machine before each race to gain optimum performance on the track you'll be facing. So gather your pit crew, put on your game face, and let's get started!

Nicky Hayden, number one rider for the Repsol Honda MotoGP team for the 2006 season, was born July 30th, 1981, and grew up in Owensboro, Kentucky. The "Kentucky Kid" won the Speedvision Pro Athlete in 1999 and in 2002 was the youngest champion of Superbikes in AMA history. Following his last two incredible seasons, where he took back-to-back victories at the US Grand Prix and followed up by being the most consistent rider in the championship, Nicky finally fulfilled his lifetime dream of becoming world champion by overcoming an eight-point deficit against Valentino Rossi and winning the 2006 championship by five points.

Find out more about Nicky Hayden by visiting his official web-site: www.nickyhayden.com. Get more info on the Nicky Hayden Racing game and other games in our portfolio by checking out Tracebit's web site at www.tracebit.com

KUNG FU HUSTLE

SO MANY GANGSTERS...SO LITTLE TIME.

From Zero to Hero, Stephen Chow Style

Shanghai, China. The 1940s. A hustle in the ghetto goes horribly wrong and two-bit gangster wannabe Sing soon finds himself stuck between the notorious Axe Gang and an unlikely cadre of secret Kung Fu Masters. Good vs. Evil.

Which will he choose?

Kung Fu Hustle is a deliriously over-the-top film directed by Stephen Chow and distributed by Sony Pictures Classics that has single-handedly breathed new life into the Kung Fu genre. The movie has received outstanding reviews all over the world.

Now, for the first time, you can be part of the jaw-dropping acrobatic action.

THE GAME

You play the game as Sing, the inauspicious newcomer at the inn of Landlady. You must fight your way through an increasingly challenging assortment of outlandish enemies in your attempt to become the next Kung Fu legend. The action is insane and improbable, cartoony and fun. Just like the movie.

Kung Fu Hustle is a side scrolling jump 'n run game. Each level has two stages: an action stage and a Boss battle stage. In the Boss battle stage You'll have to defeat a special enemy inspired by the movie in order to complete the level. But be prepared, bosses don't go down easily. You may have to fight them multiple times in multiple levels before they concede defeat.

The game celebrates the style of the movie by delivering an action-drenched environment complete with wildly imaginative combat animations. But there's no gore or bloodshed. You simply toss your enemies off screen when they are defeated.

GAME FEATURES

Play Sing, the initially inept hero of Kung Fu Hustle as you attempt to defeat the Axe Gang once again in the movie's hilarious style.

Fight indoors and outdoors. Revisit authentic movie locations, from the Inn to Axe Gang HQ.

Confront formidable warriors including the mighty Beast with his Frog ability and the Twin Assassins with their awesome knife-throwing skills.

Use great martial arts moves, including old-school Kung Fu techniques such as Fist of Legend and Stephen Chow originals such as Palm of Buddha.

Equip yourself with knives or a bamboo bat.

Thrill to widescreen in-game cut scenes that recreate the movie's most exciting moments.

Feast on a "Chow main course" of movie quotes and movie-inspired humour.

time to get down and dirty

Calling all motoheads! Ready to tackle the most physically demanding sport on Earth – professional motocross racing? Then jump in the saddle and tear up the track along with the world's top riders from Team BooKoo and "The Reality of Speed" TV series!

BooKooTM

MoToCROSS

Team BooKoo is the subject of the popular Speed TV Supercross Reality TV series "The Reality of Speed".
For more information on the team and the series check out:

www.therealityofspeed.com

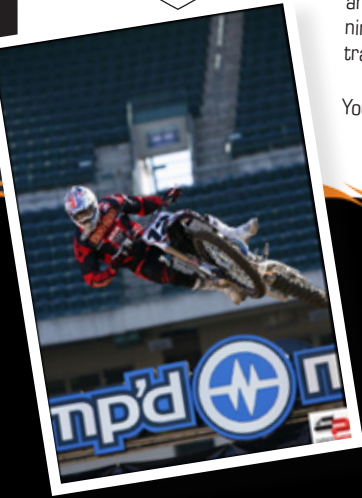

Can you endure the incredible grind of a professional motocross race?
It'll take more than a four-stroke engine and a set of knobby tires. You'll need skill, muscle, balance and an attitude as tough as the terrain. And you might need BooKoo luck to boot. Luckily, you've got ten unique moto tracks to build your skills.

Remember, motocross isn't just any race. It's no pit stops, no pavement, no prisoners. It's as much a vertical game as a horizontal one. You'll need to scramble up killer "whoops" and hills, power-glide from hilltop to hilltop and out-maneuver reckless rivals bent on winning at all costs. To make it to the finish line in one piece, you'll need to dodge obstacles, track hazards and fallen riders.

You'll need to survive.

**Think you can cut it?
There's only one way to find out.**

game features

Upgrade and modify your "factory bike" with the prize money you earn

Keep your bike in great shape or you'll be spending your prize money on repairs

Win extra money for dazzling jumps

THE CLASSIC GAME OF BATTLESHIPS COMES TO LIFE

★ aqua ★ STRIKE

· Multiplayer battleships with a twist ·

Remember the old game Battleship with the little plastic ships and pegs?

Of course you do. It was a great game, but just imagine if it could come alive with thrilling sounds and graphics. Imagine if you could see the missiles launching, watch the warplanes flying, hear the bombs exploding and experience the ships sinking. Imagine if you could choose weapons like rockets and carpet bombs. Imagine if you could fire triple shots. Imagine if the cannons really blasted and the missiles really flew. Imagine no more.

Welcome to Aqua Strike!

★ AQUA STRIKE ★

Aqua Strike breathes life into the classic strategy game and turns it into a feast for the eyes, ears and brain. Naval warfare rages on your screen, while new rules and game options add a whole new dimension to gameplay. As in the original game, you must use your wits to blow away your friend's fleet while you avoid getting blown away yourself. But now you're fully immersed in the battle action. You don't just imagine a naval battle, you live it.

Aqua Strike lets you play against live opponents or challenge the game's AI in what may be an even tougher battle. ‘

GAME FEATURES

- ★ Single-player or online multiplayer game (play against a remote human opponent or the built-in AI)
- ★ Choose cannons, carpet bombs and nukes
- ★ See the action play out in both your own and your opponent's playfields
- ★ Move the crosshairs to select your bombing locations
- ★ Markers appear, to show where you've already attacked.
- ★ Each player has a unique armada
- ★ Clever graphics preserve the "table-top" environment while introducing the sights and sounds of real battle

Get more info on the Aqua Strike game and other games in our portfolio by checking out Tracebit's web site at <http://www.tracebit.com>

going HOME 2

CAVE STORY

OUR FRIENDS ARE BACK,
FASTER AND HUNGRIER THAN EVER!

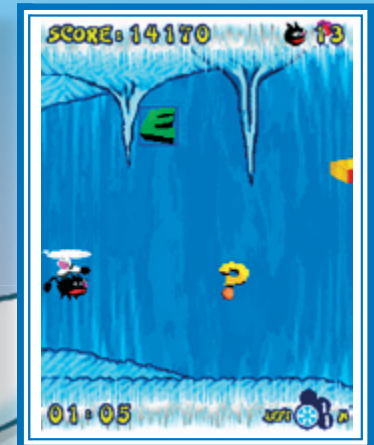

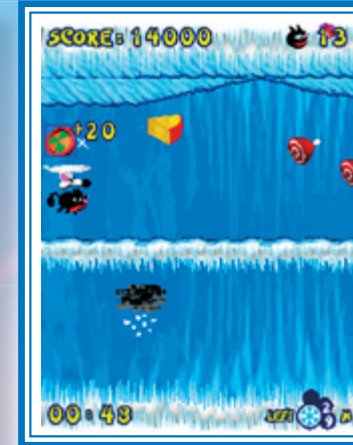

going HOME 2

The funny cat and propeller powered little mouse are heading home again. Help them fly as quickly as you can through the icy caves without touching the cave structures. Try to grab as much cheese & ham in the cave as you can and beware of dangers like thunderstorms, birds and spiders. Collect bonuses for help on the way out and a higher score.

In this adventure you will find beautiful and lively graphics, great sounds and animations that will tempt you to help our friends in their mission. A simple but great game you will play over and over again!

FEATURES

- ◆ Pick up food and treasures on the way
- ◆ caves are random, they never look the same
- ◆ Three Difficulty levels for optimum Playability
- ◆ Great sounds and graphics
- ◆ Realistic gravitation for more Challenge

Moominpappa disappears

MOOMIN ADVENTURES

Where is Moominpappa? Help Moomin and Snufkin to find Moominpappa in this funny and challenging game placed in the lovely World of Moomin.

A great and amusing game for people of all ages!

Help the Moomin family in their quest to find Moominpappa by solving many different puzzles in this adventure-style game.

While featuring easy-to-use cursor movement, the game forces you to think and will provide you with many many hours of fun game play.

Moomin, created by Tove Jansson, is a famous cartoon, known all over Europe and Asia for the special style it is written and drawn in. In addition to having its own television series, Moomin has been published in over 10 books and numerous magazines. You can find more information about the Moomins from:

<http://www.moomin.fi>

FEATURES

- Lots of puzzles to solve.
- Select from all the characters the best one to use each time.
- Authentic graphics.

View the Moomin -game video clip here: <http://www.tracebit.com/moomin>

More information on the Moomin -game and other games in our portfolio can be found on Tracebit's web site <http://www.tracebit.com>

WW2: Battle for Europe

Take on ten missions that will decide the fate of the world, flying the most important airplanes of World War II. Bomb the German V-1 rocket bases in a B-17 Flying Fortress, fend off the waves of bombers heading for London with your P-51 Mustang, climb in your Spitfire Mk XIV to aid the Allies in the invasion of Normandy, and much more.

Playing the game

The game consists of ten missions, each with a different objective. Failing to meet the objectives will not make your commanding officers happy! Of course getting through the mission alive is your number one priority.

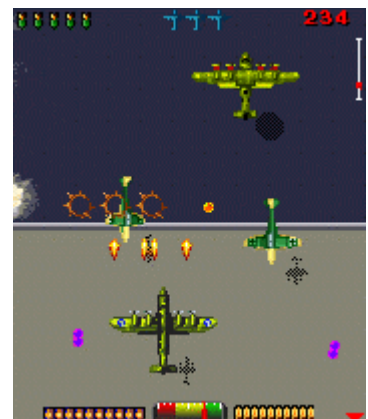

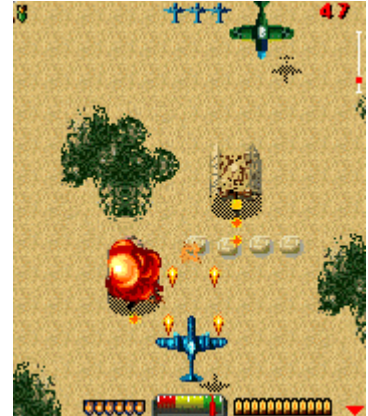

You select your airplane and ammunition individually for each mission.

The available planes are B-17 Flying Fortress, P-51 Mustang and Spitfire Mk XIV.

Controls and Options

You can move left/right/forwards/backwards using 4/6/2/8, and fire your primary weapon with 5 key and secondary weapon with 0 key.

Note that carrying heavy weapons will impair the maneuverability of your plane.

The Village

Year 1 AD. A group of colonists looking for a place where to settle down, with you as their chosen leader. However, ruling isn't an easy task and if you fail, your followers will not show mercy. Take good care of your people in The Village and make wise choices to make your Village prosper.

Playing the game

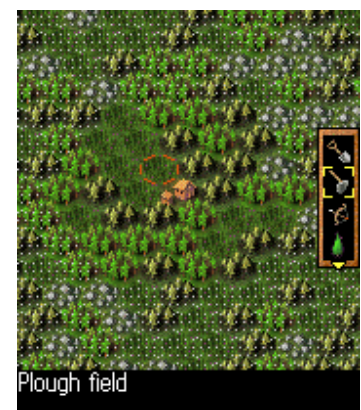

You are the mayor of a newly founded village. It is up to you to wisely guide the development and growth of the village by choosing what to produce and build, and where. Your main goal is to keep the villagers happy, if possible. Happy villagers will want to keep you as mayor, and the chance of new people moving into the village increases. Discontented people will start leaving the village, or may even depose you and choose another mayor.

A mayor is chosen for five years at a time. After that time has passed, everybody will gather in a great meeting to reflect on the past and decide whether to keep the mayor for another five years or to choose a new one. They will also give you an assessment of your achievements, along with a score. If you score well, you'll get your name on the high score list! And even better, if the villagers are happy with your lead, they will want you to continue as mayor!

Controls and Options

Use cursor keys to move on the map and in menus. Press joystick or left soft key to bring up the menu. Press left soft key or left/right cursor to get out of menus.

Shortcut keys: 0 – next month. 1 – Overview. 7 – Map.

Scott Dixon Racing

Scott Dixon Racing, featuring the Indycar 2003 Champion Scott Dixon as one of the opponents, is a fast-paced racing game with a 3D look and feel. It features an in-car perspective and is set out on the oval tracks in the Indy Racing series. Players will compete against Scott Dixon and other skillful opponents in both quick race and championship modes.

Playing the game

You can compete in a single race on the track of your choice, or participate in the championship season (all six tracks). Each race is 3 laps around the track. Available tracks are Phoenix, Miami, Indiana, Colorado, Texas and Japan. Real life championship point calculation etc makes the game rally feel like you are challenging even the 2003 champion himself!

Controls and Options

You can steer left and right, and accelerate and brake. Press 0 to return to menu. You can assign the keys to use at your own preference.

There are three difficulty levels, in the harder modes the car will suffer damages if you run into an opponent or the wall, and this will decrease your top speed.

Penguin Run

"Danger... I can smell danger in the air..." says the little Penguin with a glimpse of fear in his eyes.

Your mission is to help your friend, the little Penguin, to find the way home to his igloo. Avoid getting eaten on the journey as hungry ice bears have moved from the North Pole down south to feed on tasty penguins. You will also encounter other dangers on your way to the igloo, like wolves, ice foxes etc. When you smell the danger, light a fire and make the ice melt to drown your enemies in the ice-cold ocean. Then run for your life and don't look back!

Playing the game

In this 20+ level game you will need skill and speed to guide your little penguin friend home to his igloo. A lit campfire in the right place at the right time can save your life!

Use the joystick or the keys 4/6/2/8 to move left, right, up and down. Press joystick or key 5 to light a campfire, and key 7 to place a special fire (if you have some). After a while, the fire will melt the ice creating a hole into which all your enemies will fall and drown. Some predators can be more resistant. Fires can also be used to open treasure chests, and to work switches. To get to the next level, guide your friend to the igloo. Out of fear, you may need to destroy all enemies before entering the igloo. Press 0 to return to menu.

A Space Incident 2

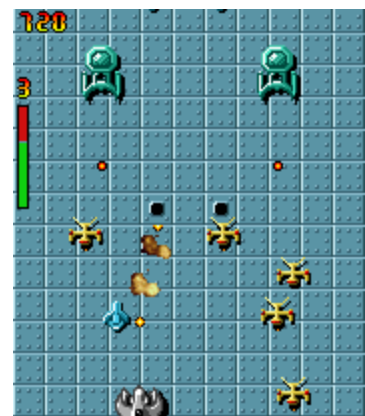

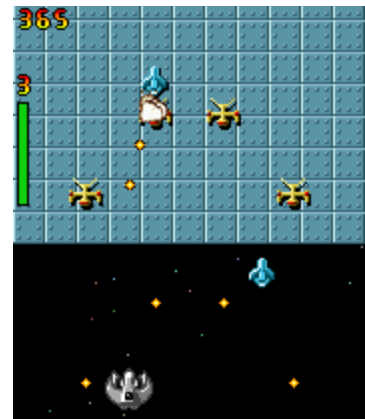

The Zorlons are attacking! Their star cruiser is parked in Earth's orbit, and their attack vessels are pouring out like crazy! Earth Command has decided that you will volunteer for the mission to destroy the enemy and save Earth (all the other pilots were, um, out to lunch). Our future is in your hands, rid us of the Zorlons now!

Playing the game

The basic idea is "shoot everything that moves", and of course avoid enemy fire and crashing into enemy ships. There are bonus containers on some levels that you need to destroy to reveal the bonus item. Then just 'pick up' the bonus by flying into it. These will give you better weapons or extra lives. Note that your "health" improves as your ship is repaired automatically if it has been damaged. The ship is repaired faster if you don't shoot all the time.

Controls and Options

Use joystick keys, or 4/6/8/2 to move left/right/back/forth, joystick press or 5 to fire, 0 to pause.
You can upgrade your weapons by picking up bonuses left by some destroyed enemy ships.

City Knights 2

The ultimate, internationally known and acclaimed fighting game – City Knights – has now got a successor. Even more action than in the original, this game will keep the buttons on your phone red hot and your palms wet! With new weapons, new movements and multiple enemies this game will be even more exciting than the original...

Playing the game

The player wins by beating his opponents by kicking or punching them or by picking up lethal weapons lying on the ground and using them to beat his opponent more efficiently. Opponents can also carry weapons. The heavier the weapon, the slower the speed of the player, but heavier the weapon inflicts greater damage on opponent. So choose your strategy well!

Controls and Options

The player can:

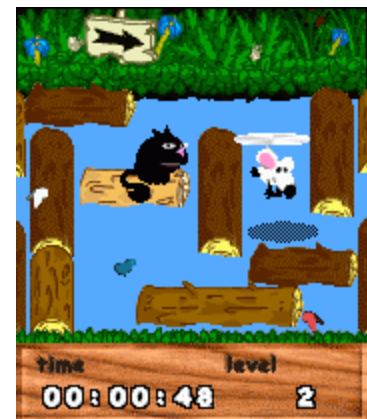

- Move left/right
- Crouch
- Jump up in the air, and do somersaults
- Punch and kick
- Pick up weapons or drop them at will.
- Block the opponent's hits and kicks

You can assign the keys you want to play with by using the Key Setup in the game option menu

Going Home

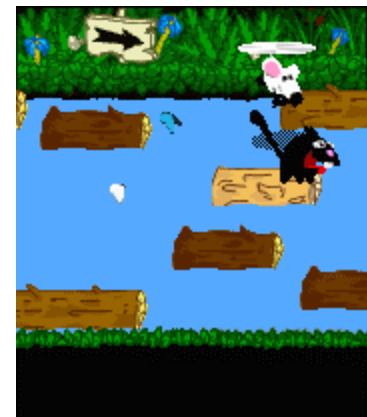

A funny cat and a propeller powered little mouse search together for a path home by moving forward on a river blocked by logs. Great scenery and superbly animated heroes makes this game just a pure joy to play. The gameplay, even though simple to learn, will show itself to be both challenging and addictive. Will you be able to get them home safely?

Playing the game

You have to help the mouse aid the cat by moving the logs. You must drag the logs to clear the passage for the cat and then guide the cat through the opening on the right. You can move the logs left, right, up and down.

Controls and Options

- You can use either joystick, or key 5 to grab a log, 2 to move the logs up, 4 to move left, 6 to move right and 8 to move the logs down.
- Go back to menu by pressing any of the menu keys
